SERVICE

PRE-SALES SERVICES Inspection & Load Estimation

Our technical team will work with you to determine what kind of inverter you need, depending on your load, usage conditions, priority appliances and budget. If required, we can arrange for a site inspection and load estimation, which will help you to better determine the kind of backup solution you need.

INSTALLATION SERVICES Delivery & Installation

Our installers will help you understand how the inverter works, and under what conditions it should operate. There are certain guidelines such as which appliances should not be used with an inverter system, as well as certain tips to ensure that your batteries last longer. Your installer will help you understand these so that you can get the most out of your purchase. We also provide delivery services if required.

AFTER-SALES SERVICES

Premium Service & Support

UNITRONIX serves the complete range of After-Sales solutions and defines all interfaces of the process chain according to individual customer requirements. This makes us your ideal partner for scalable service requirements for PV modules, inverter and battery storage alike.

OUR ADVANTAGES

- Price Advantages
- After-Sales Advantages

EXECUTIVE SUMMARY

We at **UNITRONIX®** have great pleasure in submitting a proposal to your company in response to the discussion we had for Supplying, Installation and Commissioning of a CCTV Surveillance and Security System.

The strength of our proposal lies in:

- *Our approach.* To partner with the customer.
- *Our solution.* A high performance service to the customer.
- *Our value.* Real customer benefit on the whole-life cost.

We will deploy a multi-disciplinary team with expertise in each of the areas critical to the success of fulfilling the requirement. We have subject matter expertise in the areas of surveillance, physical and information security, networking, IT service management and project management.

We have a clear understanding of the requirement set out. Our proposal is therefore based on definite objectives. The approach to the requirement, the technical solution and team has a single purpose –to deliver a high performance service to the customer. Our service will complement and enhance your existing infrastructure. We will use tried and tested COTS equipment, and partner with suppliers who have a reliable and proven track record.

SMART CCTV video recording offers the very best protection a hotel can ask for. **SMART**, which is an acronym for **S**ystem **M**onitoring **A**lert **R**esponse **T**echnology, provides hotels with three full years of onsite video storage.

In addition to providing a hotel with 24/7 video monitoring, **SMART CCTV** also features some of the most advanced innovations in the industry, including:

- Self-diagnosis of the surveillance system with periodic status reports delivered direct to you
- Automatic service requests when the DVR, NVR or cameras require service (it notifies you as well)
- Automatic back-up system that helps prevent loss of vital video data due to hard drive failure, theft, fire, flood or natural disaster
- Unlimited recording capability

Don't fall victim to fraudulent accident claims; get the protection you need with an affordable SMART CCTV system.

MANAGEMENT PROPOSAL

Our Company

Our company benefits from a wide knowledge and expertise portfolio. Our team has practitioners in the following fields; IT Service Management, Security, Safety, Accounting, Construction, Earthworks, Information Systems, Networking, Electrical and Electronic Engineering, Marketing, Architecture.

Our work ethos is second to none. Our management has excellent leadership skills and the team members work together to provide excellent service to our customers. All team members have been employed internationally in well recognized institutions which are leaders in their industry.

Our management approach will ensure that the customer realizes the following benefits

- A managed surveillance service delivered within agreed budget and on time.
- A partnership with a professional and effective supplier.
- A strategic relationship with an open-minded partner.
- An excellent service at great value.
- An opportunity to work with a developing and growing company.

UNITRONIX®, Solutions as one of the leading companies in information technology and security and renewable energy technology is undertaking this contract mainly to improve the security in **your facility**
